Khaled Abdelrazeq

Senior Flutter Developer

Cairo, EG | +201024783981 | Khaled.abdelrazeq971@gmail.com

Summary

Senior Flutter Developer with strong experience building production-ready mobile applications for Android and iOS. Proven expertise in developing scalable solutions with **online payments, map-based features, real-time updates, and Firebase integrations**, with a strong focus on performance, clean architecture, and user experience.

Experience

ServiceNow | ServiceNow Developer **Jul 2023– Present**

- Developed and maintained **ServiceNow solutions** to support business and IT needs.
- Customized **ITSM modules** (Incident, Problem, Change, Request) following ITIL standards.
- Created and maintained Business Rules, Script Includes, Client Scripts, UI Policies, and ACLs.
- Built and customized Service Portal components and widgets.
- Automated processes using Flow Designer and Workflow Editor.
- Implemented integrations with external systems using **REST/SOAP APIs and MID Server**.
- Improved platform performance through script optimization and best practices.
- Worked closely with stakeholders and teams to deliver technical solutions.
- Provided production support and resolved platform issues.

G2K-Group | Mobile Application Developer (Flutter) **Sep 2022 – Aug 2023**

- Worked on a Smart Cities mobile application for TMG & Tatweer Misr.
- Developed and maintained Flutter features for **real estate and community services**.
- Implemented **online payment flows** and integrated secure payment gateways.
- Built user-facing features for unit management, bookings, and service requests.
- Integrated REST APIs and handled application state and business logic.
- Collaborated with cross-functional teams to deliver **production-ready releases**.

Qatra (Saudi Arabia) | Senior Flutter Developer - “Part-time” **Feb 2024 – Present**

- Leading development of the **Qatra donation platform** used by real users.
- Implemented **map-based features** displaying mosques with **custom markers** and location-based interactions.
- Developed core features including online payments, donation flows, and order tracking.
- Integrated **Firebase services** (Authentication, Firestore, Push Notifications).
- Improved application performance, stability, and code maintainability.
- Collaborated with product and business teams on feature planning and delivery.

Qatra (Saudi Arabia) | Flutter Developer - “Part-time” **Jul 2022 – Feb 2024**

- Contributed to building and enhancing the Qatra mobile application.
- Implemented map views and location-based features for mosque discovery.
- Integrated REST APIs and backend services.
- Fixed bugs and supported ongoing production releases.

Amack | Flutter Developer - “Part-time” **Jul 2022 – Apr 2023**

- Worked on a trip booking mobile application for diving activities.
- Implemented **map-based features,** including site discovery, search on map, and **custom markers**.
- Built booking flows for **individual and group trips**.
- Integrated **online payment** functionality.
- Developed user interfaces and handled API integrations.
- Improved app stability and user experience.

Media Consul | Flutter Developer **Jan 2022 – Jul 2022**

- Worked on **multiple mobile applications** across different business domains.
- Implemented Flutter UI screens and user flows based on project requirements.
- Integrated REST APIs and handled application logic.
- Fixed bugs and contributed to performance and stability improvements.
- Supported testing and production releases.

TRONX | Augmented Reality Developer **Sep 2019 – Apr 2020**

- Developed educational augmented reality mobile applications for kids.
- Built interactive AR experiences using 3D models and animations.
- Collaborated with designers and content creators to deliver engaging learning experiences.
- Assisted in testing and optimizing AR performance on mobile devices.

Education

Benha University, Bachelor’s Degree in Computer Science **2015 - 2019**

Skills & abilities

- **Mobile:** Flutter, Dart, Firebase, Payments, Maps, State managements
- **State management:** GetX, Bloc, Cubit, Riverpod
- **App Features:** Online Payment Integration, Maps & Location-based Features, Custom Markers, Push Notifications, Real-time Updates
- **Backend & Services:** REST APIs (Dio, HTTP), Firebase
- **Integrations:** REST APIs, Third-party integrations, Push notifications
- **ServiceNow:** ITSM, Service Portal, CMDB & CSDM, Flow Designer, Business Rules, Script Includes, ACLs, Performance analytics, UI policies & UI actions, Scheduled scripts
- **Architecture & Tools:** Git & Github, MVVM / MVC, Agile/Scrum, Clean Code, Clean architecture
- **Soft Skills:** Leadership, Problem Solving, Communication
